

Job Announcement

Environmental Scientist II

The Position

We have an exciting opportunity for an outstanding individual to join our team as an **Environmental Scientist II** at our headquarters in Fullerton, California. Individuals with at least 3+ years of professional experience are encouraged to apply. This person will be responsible for assisting municipal, utility, industrial, and commercial clients with stormwater planning and compliance efforts associated with Phase I and II Municipal Separate Storm Sewer System (MS4) Permits, the Construction General Permit (CGP), and Industrial General Permit (IGP). The position's primary duties are to interpret complex regulatory permits, assist clients with regulatory compliance, prepare technical reports, conduct environmental compliance inspections and sampling, and complete high quality deliverables on time and within budget.

Critical Tasks and Responsibilities

- Interpret regulatory permits and formulate compliance strategies
- Prepare comprehensive technical reports and documents (watershed management plans, stormwater management plans, annual reports, non-stormwater discharge source assessments, adaptive management plans, compliance guidance documents, compliance reports, rain and sampling event summary reports, SWPPPs, WQMPs, etc.)
- Perform construction site and facility environmental compliance inspections (QSP, QISP, FOG)
- Conduct environmental sampling, testing, and observations (primarily surface water, stormwater, groundwater, wastewater, along with soils and sediments)
- Make field observations and perform data measurement and collection assignments
- Data management and analysis (compilation, manipulation, and evaluation of data)
- Perform maintenance and calibration of environmental monitoring instruments, meters, probes, and automated sampling equipment
- Develop and implement monitoring and reporting plans and field studies
- Perform regulatory and water quality data analyses

Required Competencies and Qualifications

- BS in Environmental Science, Civil or Environmental Engineering, or a related field, advanced degree a plus
- 3+ years of professional work experience
- Able to read, interpret, and analyze plans, technical manuals, and permits
- Ability to pay attention to detail with a high level of accuracy
- Demonstrates a strong work ethic
- Excellent writer and communicator
- Proactive approach/self-starter/takes initiative/positive attitude/team player

Job Announcement

Environmental Scientist II

- Proficient in Microsoft Office Suite
- Ability to kneel, climb, and lift up to 50 lbs
- Valid California driver's license and insurable driving record

Desired Competencies and Qualifications

The following competencies and qualifications are a plus, but not required:

- Knowledge of stormwater permitting and planning; water quality monitoring; BMPs; and environmental compliance inspections
- Strong analytical skills
- CPSWQ/CPESC certification
- QSD or QSP and QISP certifications
- Proficient with ArcGIS
- OSHA 40-hour HAZWOPER training
